# WELLESLEY COLLEGE

• CALENDAR •

1898-99.

## CORRESPONDENCE.

---

Information in regard to entrance examinations and preparatory schools will be given by Miss E. F. PENDLETON, Secretary of the College. Applications for calendars, blanks, documents, concerning admission to College, and for all general information should also be addressed to Miss Pendleton.

As Secretary of the Teachers' Registry, Miss MARY CASWELL is prepared to furnish full and confidential information in regard to the qualifications, character, and experience of teachers educated at Wellesley. Former students of the College who wish situations as teachers have the aid of the Teachers' Registry.

Applications for pecuniary assistance (see p. 21) should be made by letter, addressed to the Secretary of the Students' Aid Society, Wellesley, Mass.

Inquiries about graduate study and the requirements for higher degrees may be made of Dr. HELEN L. WEBSTER, Chairman of Committee on Graduate Instruction.

# Wellesley College,

WELLESLEY, MASSACHUSETTS.

---

WELLESLEY COLLEGE was established in 1875, for the purpose of furnishing to young women who desire to obtain a liberal education such advantages and facilities as are enjoyed in institutions of the highest grade.

The College is undenominational, but distinctively and positively Christian in its influence, discipline, and instruction. The systematic study of the Bible is required. Daily service is held in the chapel. The Sunday services are conducted by ministers of different denominations. The Wellesley College Christian Association is organized to promote the religious life of the College, to arouse an intelligent interest in social reforms, and to increase the interest in home and foreign missions.

By the charter, granted by the Commonwealth of Massachusetts, "the corporation of Wellesley College is authorized to grant such honorary testimonials, and confer such honors, degrees, and diplomas, as are granted or conferred by any University, College, or Seminary of learning in this Commonwealth; and the diplomas so granted shall entitle the possessors to the immunities and privileges allowed, by usage or statute, to the possessors of like diplomas from any University, College, or Seminary of learning in this Commonwealth."

## Libraries.

THE LIBRARY of the College, endowed by Eben Norton Horsford, now numbers 48,000 carefully selected volumes, including collections enumerated below. The General Library is open on week-days from 7 A. M. to 9.20 P. M., and on Sundays from 9 to 11 A. M. and from 2 to 6 P. M. Students have free access to the shelves. The library is fully catalogued by author and subject entries, and the most recent and useful bibliographical aids are provided; special effort is made by the librarians to train students in thorough methods of research. A practical course of instruction in Bibliography is given each year in connection with college courses in Literature, Art, Philosophy, History, and Economics.

One hundred and seventy-five American, English, French, and German periodicals are taken for the General Library. The list includes the most important representatives of the branches of instruction covered by the college curriculum. About thirty-seven daily, weekly, and monthly journals are taken for the reading room.

THE GERTRUDE MEMORIAL LIBRARY, established by Mr. A. A. Sweet, the MISSIONARY LIBRARY, and other collections in the General Library, furnish 4,110 volumes for Biblical study and religious reading.

THE LIBRARY OF AMERICAN LINGUISTICS, a special gift from Prof. E. N. Horsford, now numbers 1,420 works, including the valuable collection made by Major J. W. Powell.

The following collections are located in the laboratories of the departments to which they belong :—

Art Library, 1,518 volumes.

Botanical Library, 1,706 volumes.

Library of Physics, Physical Astronomy, Microscopy, and Physical Geography, 2,220 volumes.

Library of Zoology and Physiology, 1,642 volumes.

Library of Chemistry, 946 volumes.

In the smaller houses, libraries of literary, historical, and religious works are accumulating through private generosity.

#### **The Farnsworth Art Building and the Art Collections.**

The Farnsworth Art Building, the gift of the late Isaac D. Farnsworth, was opened for work in September, 1889. Besides a lecture room, galleries for collections, and studios for those engaged in drawing and painting, a special feature in the plan of the building is the arrangement of laboratories and libraries, so that the books and art material relating to particular subjects and periods can be made immediately available to general students.

The Art Collection consists of a large number of photographs, engravings, etchings, and drawings ; a series of stereoscopic views illustrating the history and art of different nations and periods ; a collection of paintings in oil and water colors ; copies of ancient armor ; a few ceramics, coins, and pieces in bronze and iron ; one hundred statues and busts ; a small collection of casts from the antique ; thirty-six pieces of pottery from an ancient cemetery on the Isthmus of Panama, the gift of Mrs. J. S. Lamson ; the James Jackson Jarves collection of laces, embroideries, and vestments ; a collection of Indian baskets, the gift of Mrs. Rufus S. Frost, and the Stetson collection of modern paintings in oil.

Thirty-eight large photographs from the Raphael cartoons in the South Kensington Museum, the gift of Mr. John C. Gray, and about two thousand other photographs have been added to the art collections during the year.

#### **Music Hall.**

The Department of Music occupies Music Hall, which contains thirty-eight music rooms, and a hall for lectures and choral singing. Thirty-seven pianos and two organs are furnished for the use of students. The Chapel Organ, presented by Mr. W. O. Grover, has three manuals, each of sixty-one notes, a pedal of thirty notes, and twenty-six speaking registers. It contains 1,584 pipes.

## Laboratories and Scientific Collections.

### CHEMICAL LABORATORIES.

A building has recently been erected for work in Chemistry alone. This contains a large laboratory for General Chemistry, with lockers for two hundred students; separate rooms for analytical work in qualitative and quantitative branches; and a room specially arranged for making organic preparations. All of the rooms are well lighted, conveniently arranged, and thoroughly equipped with modern appliances for successful work. The building contains also a reading room, and a large lecture room admirably arranged for experimental illustrations.

### GEOLOGICAL AND MINERALOGICAL COLLECTIONS.

The mineralogical specimens are arranged in three collections. One collection is exhibited in glass cases, and illustrates the variety and finer qualities of mineral specimens; also by its arrangement with labels for the groups into which it is divided, it shows the classification of minerals, and, to some extent, their association.

Another collection is used for reference. It contains well-characterized specimens of the more common species. The specimens are labeled and arranged in drawers, and the collection is always accessible to students taking Mineralogy.

There is a third collection, which is used for teaching purposes. It comprises smaller but well-selected specimens, which are systematically arranged in small wooden trays with numbers, but without labels. During an exercise each student has one of these trays, which presents objectively the subject of the lesson.

The room containing these collections is supplied with tables equipped with appliances for testing specimens and laboratory work.

The geological collection of specimens used in teaching the kinds of rocks, rock-structures, the fossil evidences of life and their succession in past times, is so arranged in cases and labeled that it permanently illustrates these topics.

### PHYSICAL LABORATORIES.

The department of Physics occupies a convenient lecture room, provided with arrangements for sunlight and lantern projection, and adequate apparatus for illustrative experiments.

Laboratories for students are equipped with instruments adapted to a wide range of work. Rooms are especially fitted for photometry, photography, spectroscopic work, and electrical measurements. A workshop is provided with lathe and tools. A steam-engine and two dynamos are connected with the laboratories.

### BOTANICAL LABORATORIES.

For the use of students in morphological, histological, and physiological

work, there are three distinct laboratories, each of which is thoroughly equipped for its special purpose. The laboratory for advanced work has also the necessary physical and chemical apparatus, and such other appliances as are requisite to enable students to carry on independent research.

The collections illustrative of Botany include : the herbarium, containing upward of six thousand phanerogams and about six thousand and five hundred cryptogams ; a generic collection mounted under glass ; a collection of woods, fruits, and economic vegetable products, and a set of drugs fully illustrating the pharmacopoeia ; two hundred charts by Henslow, Kny, Dodel, Tschirch, and others ; a collection of Auzoux's botanical models, illustrating the structure of both flowering and flowerless plants.

In addition to the working collections a permanent museum is being arranged.

#### ZOOLOGICAL LABORATORIES.

There are three laboratories for the study of Zoology and Animal Physiology. They are equipped with microscopes, microtomes, incubator, and the more special pieces of apparatus for physiological work.

The Zoological Museum contains a typical collection of both vertebrates and invertebrates, and a considerable number of models by Ziegler, Blaschka, Auzoux, and Deyrolle. There are also excellent collections of the local birds and of insects.

#### PSYCHOLOGICAL LABORATORY.

The work of the laboratory is carried on in five rooms (among which are dark-room and lecture-room) with electrical connections. The equipment includes Sanford's chronograph ; Lough's electrically actuated pendulum ; kymograph, tambours, pneumograph, etc., for recording physiological reactions ; a color-wheel, a campimeter, a Wheatstone stereoscope ; the Hering simultaneous contrast apparatus ; Münsterberg's apparatus for the localization of sound, tuning-forks and sonometers ; a pressure-balance, aesthesiometers, graduated weights, etc. ; and apparatus for special investigations. Students may have the use of models and plates of the brain, and of dissecting instruments.

#### MATHEMATICAL MODELS.

The collection of mathematical models consists of a set of models of simple solids, surfaces of the second and higher orders, and circular sections of surfaces of the second order. They are executed in wood, thread, card, and plaster.

#### Lectures and Concerts.

The College provides annually addresses of special interest to the members of various departments, but open to the college at large. A course of lectures on current topics is maintained from October until May. These lectures are given by members of the Wellesley faculty, assisted by professors

of other faculties and by other speakers. The Kate Howard Furness Fund has been established to provide annually a lecture or reading on a Shakespearean subject. The Monroe Fund is intended to furnish each year two lectures or readings in the interest of the department of Elocution.

Frequent recitals and concerts are given by instructors in the department of Music, by advanced students, and by distinguished musicians from Boston and elsewhere. These concerts are free, but it is expected that all who are able will contribute to the Concert Fund.

#### **Health Provisions.**

Wellesley is known as one of the most healthful towns in Massachusetts. The college grounds include more than three hundred acres, and give ample opportunity for exercise and recreation. Lake Waban affords a most attractive place for boating and skating.

The health of the students is considered of primary importance. In the construction of buildings this end has constantly been kept in view. Everything possible has been done to give an abundance of light, sunshine, fresh air, and pure water. The drainage, natural and artificial, is excellent.

Two professionally trained Health Officers are in residence, one at College Hall, the other at Eliot Cottage in the village. The Health Officers, the Director of Physical Training, the Dean, and the President of the College constitute a Board of Health.

Full provision is made for any illness which may occur. Two hospital wards, with the constant attendance of a trained nurse, are maintained in College Hall; there is also an emergency ward in an isolated building. No charge is made for the ordinary services of health officers or resident nurse.

Freshmen are required to take a course in Physiology and Hygiene, one appointment per week for a year.

The Gymnasium is equipped with apparatus for Swedish educational gymnastics. Three hours per week of physical training are required in the freshman year. Upper-class students may also arrange for work in the Gymnasium.

The grounds of the College furnish opportunity for a wide range of outdoor sports and pastimes.

#### **Residence.**

Two systems of lodging are in use at Wellesley,—the cottage system and the hall system. College Hall, with three dining rooms, accommodates two hundred and seventy-seven persons; Stone Hall, with four dining rooms, one hundred and three; Freeman Cottage, forty-eight; Wood Cottage, forty-nine; Norumbega Cottage, thirty-two; The Eliot, thirty-one; Simpson Cottage, twenty-three; Waban Cottage, eleven; The Fiske, thirty-four. Each building contains single rooms as well as suites for two students. All the rooms are fully furnished, and supplied with electric lights or student lamps.

### EXPENSES.

The charge to all students living in the college buildings and taking the regular college course, without music, is \$400 per year.\* Such students will pay \$250 at the opening of the College in September. Of this amount, \$175 is for tuition. At the beginning of the second semester the balance (\$150) is due.

Students who are not lodged in the college buildings make their entire tuition payment (see below) at the time of the opening in September. These payments must be made before the student may take her place in the class room. No exception will be made to this rule without a written permission from the Treasurer.

 Checks or money orders should be made payable to Wellesley College.

#### TUITION.

The charge for full tuition to all students, whether living in college buildings or not, is \$175 a year.

Tuition must always be paid in advance, and is not subject to return or deduction.

Students who are permitted to take *seven hours or less* of class-room work per week, and *who do not live in the college buildings*, pay tuition by the course as follows: For a one-hour course, \$20; a two-hour course, \$40; a three-hour course \$60. Payment is due at the beginning of the year. No charge is made for tuition in Bible study.

An additional charge is made for materials in the following laboratory courses: \$5 for each laboratory course in Botany, Chemistry, Zoology, or Physics, and \$2.50 for each course in Mineralogy or Advanced Geography. Every student should also reckon on the expenditure of \$10 to \$25 annually for the purchase of books. At the time of taking the degree a diploma fee is charged. This is \$5 for the B.A. degree and \$25 for the M.A. degree. At the time of taking a certificate, a certificate fee of \$3 is due.

#### TUITION AND OTHER CHARGES IN THE DEPARTMENT OF MUSIC.

For instruction for the college year in Piano, Organ, Violin, or Vocal

Music, two lessons per week . . . . .	\$100 00
One lesson per week . . . . .	50 00
	(Lessons forty-five minutes each.)
Two half-hour lessons per week . . . . .	75 00
Ensemble playing, class of six, each student . . . . .	35 00
For use of the Piano or Reed Organ, one period daily, for the year . . . . .	10 00
For two periods daily . . . . .	20 00
For three periods daily . . . . .	30 00
For use of the Pipe Organ in Music Hall, one period daily, for the year . . . . .	15 00
For two periods daily . . . . .	30 00

\*Until the close of the college year which ends in June, 1899, all students who were in attendance during the college year 1895-96 will pay at the rate for that year, \$150 for tuition and \$200 for board; \$200 due on entrance, and \$150 at the beginning of the second semester. No students except those enrolled for the full year 1895-96, and present at both semester examinations, can be admitted at these rates. No assistance in clerical or domestic work is required from any student.

All charges in music are payable in advance, and are not subject to return or deduction. Charges for instruction on instruments not mentioned will be fixed when the lessons are arranged. Tuition in music for students beginning after the opening of the college year is in proportion to the number of lessons given.

#### BOARD.

A student vacating a room before the close of the year will be charged for board at the rate of \$7 a week until the vacancy has been filled by an incoming student. Therefore, notice of an intention to withdraw should be given at the earliest possible moment. No deduction is made for absences during the year.

Application for rooms in the college buildings should be made from one to two years in advance of the time at which the student is expected to enter, or, if possible, even earlier. A fee of \$10 is required for recording application, and no application is recorded until the fee is received. This fee will be credited to the student, and a corresponding deduction made on her first payment. If the student decides to withdraw, the fee will be returned provided notification of withdrawal is received at Wellesley thirty days before the beginning of the college year. A student who postpones entrance until the year following the one for which she first applied may transfer her application fee.

Until July 1st, but not after that date, applications from former students will take precedence of those of new students in the matter of rooms. Board can be obtained in private families in the village for \$6 per week and upward. A limited number of students can arrange for board at the College during the Christmas and spring vacations; the charge is \$7 per week. Information regarding boarding places may be obtained by addressing the Dean.

~~No~~ *No student can receive a diploma until a satisfactory settlement of all her college dues has been made.*

#### Scholarships, etc.

##### A. FOR GRADUATES.

Thirty scholarships to the value of \$175 per year have been established for the benefit of approved candidates for the M.A. degree. Applications for these scholarships should be addressed to the Chairman of the Committee on Graduate Instruction, Wellesley College, Wellesley, Mass.

##### B. FOR UNDERGRADUATES.\*

The Wood Memorial Scholarship, founded in 1878, by Mrs. Caroline A. Wood, in memory of her husband.

The Grover Scholarship, founded in 1878, by William O. Grover.

The Weston Scholarship, founded in 1878, by David M. Weston.

The Northfield Seminary Scholarship, founded in 1878.

\* Unless otherwise stated these scholarships are of \$5,000 each.

- The Pauline A. Durant Scholarship, founded in 1880, by Mr. and Mrs. Durant.
- The Sweatman Scholarship, founded in 1880, by Mr. V. C. Sweatman.
- The Walter Baker Memorial Scholarship, founded in 1880, by Mrs. Eleanor J. W. Baker; raised to \$7,000 by will of Mrs. Baker in 1892.
- The Annie M. Wood Scholarship, founded in 1880, by Frank Wood.
- Two Frost Scholarships, founded in 1880, by Rufus S. Frost, as follows:—
- One of \$1,000, the income to be given annually to some member of the graduating class designated by the Faculty.
  - One of \$5,000, the income to be devoted annually to the aid of students.
- The Union Church Scholarship, founded in 1880, by Mr. and Mrs. A. W. Stetson.
- The Florence N. Brown Memorial Scholarship, founded in 1880, by Mr. and Mrs. Samuel N. Brown, Jr.

The Goodwin Scholarship, founded in 1897, by Hannah B. Goodwin.

The Hyde Scholarship, of \$2,000, founded in 1898, by Sarah B. Hyde.

The Bill Scholarship, of \$7,000, founded in 1898, by Charles Bill.

As its means allow, the Students' Aid Society also affords help to those who cannot from their own resources meet the entire expense of the college course. In many cases money is loaned to students without interest, in the expectation that whenever they are able they will repay the Society; assistance is often given partly in gifts and partly in loans.

The funds at the disposal of the Society are wholly insufficient to meet the wants of the applicants. Contributions of any amount will be gladly received, and should be sent to the Treasurer of the Society, Mrs. Pauline A. Durant, Wellesley, Mass. All applications for assistance must be made by letter, addressed to the Secretary of the Students' Aid Society, Wellesley, Mass., before the first of May preceding the college year for which the aid is needed.

In two cottages a reduction of \$100 is allowed on payment for board, under certain conditions.

#### **ADMISSION.**

##### **Admission to the Freshman Class.**

Students are admitted either by examination (see pages 22 to 23) or by certificate (see pages 23 to 24).

Every candidate for a degree must offer for admission to the freshman class the following subjects: English, History, Algebra, Plane Geometry, Latin, and in addition the maximum requirement in a second language (which may be either Greek, or French, or German), together with the minimum requirement in a third language or in one of the following sciences: Chemistry, Physics, Zoology. For full details regarding requirements in these subjects see pages 24 to 30.

The entrance subjects are divided into three groups, A, B, C, as follows:—

Group A. Rhetoric, History, Cæsar, Vergil and Prosody, Cicero, Anabasis, Greek Grammar, Iliad, Greek for the minimum requirement, German (reading, poetry, and technical grammar of maximum requirement), and French (reading, poetry, and technical grammar of maximum requirement).

Group B. Algebra or Geometry, English Literature, Physics, Chemistry, and Zoology.

Group C. English Composition, Latin Prose Composition, Greek Prose Composition, French Prose Composition and Conversation of maximum requirement, German Prose Composition and Conversation of maximum requirement, French and German minimum requirement and either Geometry or Algebra.

Final examinations in subjects of group A may be taken at any time before entering college. Final examinations in subjects of group B must be taken not earlier than *fifteen months before entrance* in September. Final examinations in subjects of group C must be taken not earlier than *twelve months before entrance* in September.

~~Do~~ The above applies to final examinations held by principals of schools, preliminary to granting certificates, as well as to the college entrance examinations.

Candidates will not be admitted if conditioned in two, or heavily conditioned in one, of the following subjects: Latin, Greek, French, German, Mathematics.

A candidate for admission must be at least sixteen years of age, and must present satisfactory evidence of good moral character and good health. A blank form for the certificate of health will be sent in July to all registered applicants for admission.

The student who has met all entrance requirements is qualified for immediate matriculation for the Baccalaureate degree in Arts.

All communications concerning admission should be addressed to the Secretary of Wellesley College, Wellesley, Mass.

#### ADMISSION ON EXAMINATION.

Entrance examinations are offered at the College in June and September of each year. Such examinations may be appointed in June in any city where they are desired by two or more candidates. ## ADMISSION ON CERTIFICATE.

Any school whose equipment and curriculum enable it to prepare students for the freshman class, upon complying with the regulations stated below, may receive the right to give a certificate of scholarship, which shall excuse the candidate from College entrance examinations in the subjects satisfactorily covered by the certificate.

## RIGHT OF CERTIFICATION.

1. The principal of a preparatory school who wishes a student to enter on his certificate in September, must apply for the right of certification *not later than the first day of the preceding April*. In response to this application a blank form will be sent, which the Principal is requested to fill out and return, sending with it a catalogue or circular of the school.

2. The school is considered to be on probation during the first year of the first candidate. The right of certification may be withdrawn at any time from any school which fails to give complete and satisfactory preparation.

## CERTIFICATE OF SCHOLARSHIP.

1. The principal of the preparatory school must present, upon a blank form furnished by the College, a certificate of scholarship for each candidate.

2. All certificates must be forwarded in time to be received at the College by *July 1st*, unless special arrangements have been made with the Board of Examiners. On or before August 1st each candidate will be informed of the decision with regard to her certificate.

3. All certificates must show distinctly that the candidate has met in detail the requirements as published in the current Calendar. Whenever any variation has been allowed, the work done must be specifically stated and offered as an equivalent, to be accepted or refused.

4. All certificates must be signed by the principal of the school, and countersigned by the assistants who have instructed the candidate.

5. Supplementary certificates will not be accepted. Deficiencies upon the certificate received in July can be made good only by examination at the College.

6. The candidate who has received the certificate of a principal will not be exempt from the entrance examinations in any particular subject, unless her certificate shows that she has satisfactorily accomplished the full amount of work required in that subject. Any student whose certificate is found on July 1st to be deficient in more than three subjects of Groups B or C or in six of Group A [see pages 21, 22] may be refused the privilege of taking examination the following September.

Subjects required for admission, with details regarding them, are as follows :—

## I. ENGLISH.

*Rhetoric*.—Choice of Words, Construction of Sentences and of Paragraphs, Outlines of Themes.

Text-books recommended: Scott and Denney's Composition-Rhetoric; Lewis's First Book in Writing English; J. F. Genung's Outlines of Rhetoric; A. S. Hill's Foundations of Rhetoric, and as companion book, Huber Gray Buehler's Practical Exercises in English; W. G. Mead's Elementary Composition and Rhetoric. The first half of Genung's Practical Elements of Rhetoric will be accepted.

*Composition.*—The subjects for the examination in Composition will be taken from the English Literature required for the year. The form of the examination will usually be the writing of a paragraph or two on each of several topics, to be chosen by the candidate from a number set before her in the examination paper. The treatment of these topics is designed to test the candidate's power of clear and accurate expression, and will call for only a general knowledge of the substance of the books. In place of the whole or a part of this test, the candidate may be allowed to present an exercise book, properly certified by the instructor, containing compositions or other written work done in connection with the reading of the books.

To meet the requirement in composition, the student should have practice in writing equivalent to fortnightly themes during the first two years and weekly themes during the last two years of the preparatory course. No applicant will be accepted in English whose work is notably defective in point of spelling, grammar, idiom, punctuation, or division into paragraphs.

*Literature.*—The Wellesley requirement is that adopted by the Commission of New England Colleges.

#### A. Reading.

Certain books are set for reading. The candidate is required to present evidence of a general knowledge of the subject matter, and to answer simple questions on the lives of the authors.

The books set for this part of the examination are :—

1898 : Milton's *Paradise Lost*, Books I. and II.; Pope's *Iliad*, Books I. and XXII.; the *Sir Roger de Coverley Papers*; Goldsmith's *Vicar of Wakefield*; Coleridge's *Ancient Mariner*; Southeby's *Life of Nelson*; Carlyle's *Essay on Burns*; Lowell's *Vision of Sir Launfal*; Hawthorne's *House of the Seven Gables*.

1899 : Dryden's *Palamon and Arcite*; Pope's *Iliad*, Books I., VI., XXII., and XXIV.; the *Sir Roger de Coverley Papers*; Goldsmith's *Vicar of Wakefield*; Coleridge's *Ancient Mariner*; De Quincey's *Flight of a Tartar Tribe*; Cooper's *Last of the Mohicans*; Lowell's *Vision of Sir Launfal*; Hawthorne's *House of the Seven Gables*.

1900 : Dryden's *Palamon and Arcite*; Pope's *Iliad*, Books I., VI., XXII., and XXIV.; the *Sir Roger de Coverley Papers*; Goldsmith's *Vicar of Wakefield*; Scott's *Ivanhoe*; De Quincey's *Flight of a Tartar Tribe*; Cooper's *Last of the Mohicans*; Tennyson's *Princess*; Lowell's *Vision of Sir Launfal*.

1901 : Shakespeare's *Merchant of Venice*; Pope's *Iliad*, Books I., VI., XXII., and XXIV.; the *Sir Roger de Coverley Papers*; Goldsmith's *Vicar of Wakefield*; Coleridge's *Ancient Mariner*; Scott's *Ivanhoe*; Cooper's *Last of the Mohicans*; Tennyson's *Princess*; Lowell's *Vision of Sir Launfal*; George Eliot's *Silas Marner*.

#### B. Study and Practice.

This part of the examination presupposes the thorough study of each of

the works named below. The examination will be upon subject-matter, form, and structure.

The books set for this part of the examination are :—

- 1898 : Shakespeare's *Macbeth*; Burke's *Speech on Conciliation with America*; De Quincey's *Flight of a Tartar Tribe*; Tennyson's *Princess*.
- 1899 : Shakespeare's *Macbeth*; Milton's *Paradise Lost*, Books I. and II.; Burke's *Speech on Conciliation with America*; Carlyle's *Essay on Burns*.
- 1900 : Shakespeare's *Macbeth*; Milton's *Paradise Lost*, Books I. and II.; Burke's *Speech on Conciliation with America*; Macaulay's *Essays on Milton and Addison*.
- 1901 : Shakespeare's *Macbeth*; Milton's *Lycidas*, *Comus*, *L'Allegro*, and *Il Penseroso*; Burke's *Speech on Conciliation with America*; Macaulay's *Essays on Milton and Addison*.

## II. HISTORY :—

A brief history of the United States to the close of the Revolutionary War; of Greece to the Peloponnesian War; and of Rome to the close of the first century A. D. English History may be substituted for Greek History by candidates not offering Greek.

Beginning with September, 1900, a single subject will be required to which the equivalent of three recitations per week for the school year must be given. The subject may be chosen from the following: The History of Greece to the death of Alexander, with due reference to Greek life, literature, and Art; the History of Rome, the Republic and Empire to the accession of Commodus; English History, with due reference to social and political development; American History, with the elements of Civil Government. Any candidate desiring to do so, may offer a year's work in a single subject in September, 1899. It is expected that a second subject with an equal time requirement will be added in the near future. Meantime a second subject will be accepted on examination as a college course. Notebooks and other written work should be submitted as supplementary evidence.

## III. MATHEMATICS :—

*Algebra*.—Proportion, Inequalities, Powers and Roots, Quadratic Equations, Arithmetic Progression, Geometric Progression.

*Plane Geometry*.—As found in Chauvenet, or its equivalent.

Deficiency in preparation usually results from one or more of the following causes: the use of text-books which are too elementary, insufficient length of time spent in preparation, neglect of exercises in original demonstration in Geometry, and of reviews in both Algebra and Geometry. One and one third years, with daily recitations, is the minimum time in which satisfactory preparation can be made in Algebra, and one year with daily recitations is the minimum in Geometry. It is strongly urged that there be constant exercise in original demonstration in Geom-

try, with frequent written examinations in both Algebra and Geometry, the problems proposed being drawn from other sources than the text-books.

#### IV. Latin :—

Grammar, including Prosody.

The study of the rules of Prosody should be accompanied by such exercises in transposition of Latin verses as will make the rules familiar.

Prose Composition.

One of the standard text-books in this subject should be completed, and additional practice given in the writing of connected passages.

Cæsar, Gallic War, four books.

Cicero, seven orations, or six if the Mahilian Law be one.

Vergil, *Aeneid*, six books.

Equivalents will be accepted, especially if they are in the line of the requirements of the New England Commission of Colleges and Preparatory Schools; but verse will not be taken in place of prose, nor anything instead of the required translation of English into Latin. Constant practice in reading at sight is urged. The entrance examinations and the conduct of the work in College assume such training.

In addition to the foregoing four subjects required of all, a candidate must offer a maximum requirement in Greek, or French, or German, together with a minimum requirement in a third language or in a science.

#### MAXIMUM REQUIREMENT IN GREEK.

Grammar. *The etymology must be thoroughly mastered.*

Prose Composition. At least forty written exercises based upon the Greek of Xenophon, including connected passages and accompanied by a systematic study of the main principles of syntax.

Xenophon, *Anabasis*, three books.

Homer, *Iliad*, three books ; with scansion.

Candidates must be prepared to translate at sight both Attic and Homeric Greek of average difficulty, and to write in Greek a connected passage based upon Xenophon.

Particular attention should be given to the correct writing of Greek with the accents, to exercises both oral and written, and to the use of the blackboard for constant practice upon forms and constructions.

The teachers of language in the preparatory schools are urged to insist upon the use of simple and idiomatic English in translation.

Ability to read at sight either easy French or German prose is strongly recommended to all classical students.

#### MINIMUM REQUIREMENT IN GREEK.

Systematic study of etymology from Goodwin's or Hadley and Allen's Grammar, in connection with a book of First Lessons. *Anabasis*, at least three chapters. Practice in writing Greek.

This work requires at least one year, with five recitations per week. It must be distinctly understood that this preparation does not admit the student to any college course in Greek.

#### MAXIMUM REQUIREMENT IN FRENCH.

To meet the maximum requirement in French the candidate must be prepared in the following :—

(1) Grammar : a knowledge of the etymology and the essential principles of syntax, especially the use of moods and tenses. (2) Composition : familiarity with the commoner idioms, and ability to translate easy English into French at sight. (3) Reading : not less than five hundred duodecimo pages of classical and contemporary prose and verse from at least four standard authors. (4) Conversation : ability to follow a recitation conducted in French, and to answer questions in that language. (5) Ability to understand and repeat some short selections from French prose and poetry.

These results can be best attained by the use of the books indicated for College Courses 1 and 2, or their equivalents, see page 41 of present Calendar.

The maximum preparation in French should cover a period of at least two years, five recitations per week.

#### MINIMUM REQUIREMENT IN FRENCH.

As the minimum requirement a student may offer either *A* or *B* :—

*A.* The first year of the maximum requirement, viz. : (1) Grammar ; including the conjugation of the regular and the more usual irregular verbs. (2) Composition : translation at sight of simple sentences from English into French. (3) Reading : at least two hundred duodecimo pages from at least three different authors. Not more than one half of this should be from works of fiction. (4) Conversation : French should be the language of the class room.

*B.* (1) Grammar as for minimum *A*. (2) The ability to read easy prose at sight.

The student should translate, with careful attention to the grammar, at least three hundred pages from such works as *La Prise de la Bastille*, by Michelet ; *La Mare au Diable*, by George Sand ; *La Chute*, by Victor Hugo ; or the prose of such authors as Souvestre, Daudet, and About. The selections should be made from at least four different authors.

Students meeting minimum requirement *B* may be admitted to course 16, but not to course 2 without additional preparation. The minimum preparation in French should cover a period of at least one year, five recitations per week.

#### MAXIMUM REQUIREMENT IN GERMAN.

To meet the maximum requirement in German the candidate must have :—

(1) A distinct German pronunciation, which may be acquired at the

outset by a course in phonetics; (2) A knowledge of the important rules of elementary grammar, which the student should be able to state in German, and to illustrate by original examples; (3) Ability to understand spoken German, an easy lecture or novel, which will be acquired if German is made the language of the class room; (4) Fluency in conversation upon simple topics, and knowledge of German idioms, which are gained by object lessons according to Pestalozzi's *Anschauungs Method*, and by constant recitation in German; (5) Ability to understand and recite some short specimens of choice lyric poetry; (6) Ability to translate easy German at sight; (7) Ability to translate easy English into German, to write simple compositions, and to use the German script.

These results can be obtained by the following course, or its equivalents:—

Grammar: *Deutsche Sprachlehre*, by Wenckebach.

Prose composition: *German Composition*, by Ch. Harris, pp. 1-54; written abstracts of lessons in conversation, and stories from the *Lesebuch*.

Reading: *Deutsches Lesebuch*, by Wenckebach, pp. 1-126 and 167-247, studied according to the directions given in the preface. An easy story for practice in sight reading (*e. g.*, Meissner's *Aus meiner Welt*), a drama (*e. g.*, Lessing's *Minna von Barnhelm*), and Goethe's *Dichtung und Wahrheit*, three books.

Conversation: *Deutscher Anschauungs-Unterricht*, by Wenckebach, pp. 1-52, 78-82, 91-117, 128-161. Idioms, pp. 315-332 (see preface).

Poetry: *Die Schönsten Deutschen Lieder*, compiled by Wenckebach; the first five "Volkslieder," and numbers 2, 3, 8, 10, 14, 15, 18, 19, 20, 21, 22, 23, 26, 28, 30, 32, 33, 34, 37, 40, 42, 45, 46, 47, 50, 51, 52, 59, 60, 61, 62, 63, committed to memory.

The maximum preparation in German should cover a period of at least two years, five recitations per week.

#### MINIMUM REQUIREMENT IN GERMAN.

As the minimum requirement, a student may offer either *A* or *B*.

*A.* The first year of the maximum requirement, namely:—

(1) *Deutsche Sprachlehre*, pp. 1-150; *German Composition*, pp. 1-21; (2) Reading: *Deutsches Lesebuch*, pp. 1-125 and 167-247. Poetry committed to memory, pp. 220-224 in the *Lesebuch*; (3) Speaking exercises: *Deutscher Anschauungs-Unterricht*, pp. 1-36. Idioms, pp. 315-319.

*B.* The ability to read easy prose at sight.

The student should translate, with attention to the grammar, at least two hundred pages of such German texts as Andersen's *Bilderbuch ohne Bilder*, Fouqué's *Undine*, Chamisso's *Peter Schlemihl*.

Students meeting minimum requirement *B* may be admitted to a translation class (course 4, p. 37), but not to course 2 without additional preparation.

The minimum preparation in German requires at least one year, five recitations per week, and should not be crowded into a shorter time.

Equivalents will be accepted; but reading will not be taken in place of grammar, nor poetry for conversation, etc.

## MINIMUM REQUIREMENT IN SCIENCE.

Any one of the three following sciences: (1) Physics, The Harvard requirement in Physics; or, the equivalent of the courses outlined in the Report of the Committee on Secondary School Studies, pp. 117-127 [National Educational Association, 1892]. (2) Chemistry, Remsen's Introduction to the Study of Chemistry, Briefer Course; or, the course outlined in the Report of the Committee on Secondary School Studies, pp. 127-137. (3) Zoology: Colton's Practical Zoology, except those parts which involve the use of the compound microscope. The student must be able to recognize the animals, and to make the dissections described in that book.

The preparation in these sciences should cover at least one year, five recitations per week. In all the science courses, notebooks of laboratory work, certified by the teacher, are to be presented in addition to examination, or certificate of examination, upon the text.

**Admission to Advanced Standing.**

Candidates for advanced standing must fulfill the requirements for admission to the freshman class, and must also be prepared to be examined in the required studies previously pursued by the class which they wish to join, and in a sufficient number of electives to give full standing with that class.

Such candidates, if they come from other colleges, may present certificates of collegiate work; but it should be clearly understood that they are not thereby necessarily relieved from examinations.

Each candidate should apply for a statement of the credentials which she will need to present.

All correspondence should be addressed to the Secretary of the College.

**Admission of Students not Candidates for a Degree.**

Opportunities for special study are offered to students who are not candidates for a degree, but who are able to present evidence of fitness for college work. Maturity of mind and character is an important consideration. The college cannot admit to its classes students who lack the ability, the preparation, or the serious purpose required for the successful completion of the regular course. All courses, graduate as well as undergraduate, are open to special students, subject to the conditions stated by the various departments; but every such student is expected to choose a primary subject, to which she should devote the greater part of her time, and in which she should elect two or more courses. In addition, she may pursue one or more allied subjects as secondary electives.

Any student who creditably completes a prescribed group of courses in two or more departments will be granted a certificate.

A candidate for special courses is expected to meet, by examination or by certificate of an accredited school, the entrance requirements for the regular course or a full equivalent for them; and must also give evidence, by

examination, if required, of proficiency already attained in the subjects in which she desires to specialize. Opportunities of prosecuting work along special lines are open to persons of experience and success in teaching, who possess the requisite qualifications for admission to college classes.

Special students will be placed on probation when admitted, and cannot be retained if their scholarship is not in every way satisfactory to the departments which they enter. As the capacity of dormitories is not sufficient for the number of students in the regular course, special students cannot be lodged in the college buildings.

Application for entrance as a special student, with all required certificates, should be forwarded to the College *before the first of July*. All correspondence should be addressed to the Secretary of the College.

#### **College Examinations.**

An examination period occurs at the end of each semester. At these periods, and also during the days of the entrance examinations in September, examinations for the removal of conditions and deficiencies and for advanced standing may be taken.

A student desiring to remove a condition may be admitted to examination at any one of these periods, provided she has given one week's notice to the department concerned. For examination for the removal of deficiencies or for advanced standing, *special arrangements must be made*.

 The College reserves the right to require the withdrawal of students whose scholarship is not satisfactory.

#### **DEGREES.**

The following degrees will be conferred by the Trustees upon recommendation of the Academic Council :—

Bachelor of Arts.

Master of Arts.

#### **Requirements for the B.A. Degree.**

Every candidate for the B.A. degree must complete before graduation the equivalent of fifty-nine one-hour courses,\* of which a certain number are required, the rest elective.

I. REQUIRED. Courses in the following subjects are required as specified :—

Mathematics, one full course; † Philosophy, one full course; Physiology and Hygiene, one one-hour course;\*. Bible study, four one-hour courses; English, four one-hour courses; Language, one full course; Natural Sciences, two full courses. The science courses must be in different departments. If a student offers for entrance the minimum requirement in science, only one full course of natural science is required in College.

\* A one-hour course is a course given once a week for one year.

† A full course is a course given either three or four times a week for one year.

Of the required subjects, Mathematics must be taken in the freshman year; Physiology and Hygiene in the freshman year; Bible, one hour per week in the freshman and sophomore years, two hours per week in the junior year; English, one hour per week in the freshman and junior years, and two hours per week in the sophomore year. Of the natural sciences, one must be taken before the junior year, the other may be elected at any time during the course; language may be taken in any year; but either a language or a science must be taken in the freshman year. Philosophy should be taken in the junior year, save in exceptional cases.

II. ELECTIVE. All of the fifty-nine hours not indicated in the above are elective, subject only to the restriction that the equivalent of eighteen one-hour courses must be taken in one of the following ways:—

- (a) Nine in each of two subjects, related or unrelated.
- (b) Nine in one subject, with nine divided between two tributary subjects.
- (c) Twelve in one subject, with six in a tributary subject.
- (d) Twelve in one subject, with six divided between two tributary subjects.

In general, work done in required subjects may be counted in making up these eighteen hours; but course 1 in French, and course 1 in German, may not be counted.

Except by special permission, a student may not take fewer than ten or more than fifteen hours of work in any one year.

### **Requirements for the M.A. Degree.**

#### **GRADUATE INSTRUCTION.**

Candidates for the degree of Master of Arts must be graduates of Wellesley College, or of some institution of equal standing, and must give satisfactory evidence of ability to carry on the work for the Master's degree.

The amount of work required of candidates for the M.A. degree consists of the equivalent of fifteen one-hour courses chosen from the courses described in the circular of Graduate Instruction. The student is advised to choose one major subject, and not more than two minor subjects, which should be related to the major subject.

One year is the shortest time in which a candidate can complete the work required; but it must be understood that only students of ability and maturity will be able to finish it in so short a time.

Upon completion of the work for the degree of Master of Arts, either an examination or a thesis, or both, will be required. The examination must be taken at Wellesley College during the regular examination period in June of the year in which the degree is to be conferred.

Thirty scholarships, as described on page 19, are open to accepted candidates for the Master's degree. Candidates residing in the college buildings will pay the full charge for board and tuition, \$400 per annum. Upon receiving the Master's degree, a fee of twenty-five dollars will be required of each candidate.

Non-resident students who meet the requirements will receive the degree of M.A., but all candidates for the degree are strongly advised to carry on their work *in residence* either at Wellesley College, or in some institution of equal rank. The time of examination and the diploma fee are the same for resident and for non-resident students.

Circulars containing fuller information concerning graduate work will be forwarded on application. Correspondence with reference to graduate instruction should be addressed to the Chairman of the Committee on Graduate Instruction.

#### **STUDENTSHIPS GIVING OPPORTUNITY FOR STUDY ELSEWHERE THAN AT WELLESLEY.**

##### **The American School of Classical Studies at Athens.**

Wellesley College is a contributor to the support of this school, which was founded in 1882 by the Archæological Institute of America.

The object of the School is to afford opportunity for the study of classical Literature, Art, and Antiquities in Athens and Greek lands; to aid in original research in these subjects; and to conduct the exploration and excavation of classic sites.

The school year extends from October 1st to June 1st.

The regulations for admission are as follows: "Bachelors of Arts of co-operating colleges, and all Bachelors of Arts who have studied at one of these colleges as candidates for a higher degree, shall be admitted to membership in the School on presenting to the Committee a certificate from the classical department of the college at which they have last studied, stating that they are competent to pursue an independent course of study at Athens under the advice of the Director. Members of the school are subject to no charge for tuition."\* Further information can be had by application to Professor Chapin, who represents Wellesley upon the Managing Committee of the School.

##### **The Marine Biological Laboratory at Wood's Holl.**

Wellesley College is a contributor to the support of the Marine Biological Laboratory at Wood's Holl,—a region especially rich in forms of marine life, both vegetable and animal. This laboratory, which is open during the summer for the study of marine life, affords opportunities both to investigators and to persons needing either instruction or direction.

In the department of Botany there are offered courses for the study of marine algæ, types of fungi, and the higher cryptogams.

In Zoology, regular courses of instruction are given in the anatomy of typical marine invertebrates and of the lower vertebrates. There is also a course in the embryology of fishes, which is fitted for advanced students.

\* A few Fellowships of \$600 each are awarded by competitive examination.

Students in either Botany or Zoology who desire to undertake original work will receive suitable direction. In addition to these opportunities there are courses of lectures on special subjects, which are open to all students, and also evening lectures on subjects of general biological interest.

Wellesley College is entitled to appoint annually from one to three students, who are entitled to all the advantages of the Laboratory without expense for tuition. Applications for appointment to a studentship should state the character of the work to be done,—*i. e.*, whether botanical or zoological, whether general work, investigation under direction, or independent investigation,—and should be forwarded to Professor Hallowell or Professor Willcox, in time to reach Wellesley before April 1st.

#### The Zoological Station at Naples.

Wellesley College is a subscriber to the support of the American Woman's Table at the Zoological station in Naples, and as such has a voice in the selection of the persons who make use of it. Such persons must be capable of independent investigation in Botany, Zoology, or Physiology. Appointments are made for a longer or shorter period, as seems in each case expedient. Applications for the use of the table may be made through the President of the College.

#### COURSES OF INSTRUCTION.

The following Courses of Instruction are offered by the several departments, those from which undergraduates are excluded being marked with brackets. The College reserves the right to withdraw the offer of any elective study when not chosen by at least six students.

6. Victorian Prose. *Open to students who have taken, as directed below, two previous courses.* *Three hours per week for a year.*

Associate Professor Scudder.

The modern novel, from Dickens to Stevenson, is studied as a literary form and an expression of contemporary life. Essayists from Carlyle to Pater are discussed in their criticism of art, society, and religion.

7. English Poetry of the XIX. Century. *Open to students who have taken, as directed below, two previous courses.* *Three hours per week for a year.*

Associate Professor Jewett.

This course considers the work of the greater Georgian and Victorian poets in their relation to one another and to contemporary movements, political, social, ethical and aesthetic. A syllabus of topics and references may be obtained from the department.

8. English Literature of the XIV. Century. *For conditions of entrance, see statement below.* *Three hours per week for a year.*

Dr. Luce.

This course includes the close study of a portion of Chaucer's work, with reading and discussion of the rest. The stages of his development are noted. Volume II. of the "Specimens of Early English," edited by Morris and Skeat, is supplemented by Skeat's edition of Langland's "Piers the Plowman" and by the publications of the Early English Text Society. A syllabus for the Chaucer work can be procured of the department.

9. English Drama through Shakespeare. *For conditions of entrance, see statement below.* *Three hours per week for a year.*

Associate Professor Sherwood.

Critical study of Shakespeare the man, and Shakespeare the artist; examination of selected plays in the light of the principles created or observed by the great dramatists; attempt to trace the development of dramatic form from the Miracle and Mystery plays to the Elizabethan drama. Students are expected to read all of Shakespeare's plays.

\* Not offered in 1898-99.

10. Historical Development of English Literature. *For advanced students.*  
*For conditions of entrance, see statement below. Three hours per week for a year.*

Associate Professor Scudder.

This course makes a comparative study of the great literary periods. The development of literary forms is traced, the interplay of native and foreign influences noted, and the chief men of each period are briefly studied in relation to the age. The aim of the work is to fill up gaps between other courses, and to give a rapid synthetic survey of English literature in its development.

11. [Shelley and Browning. *Seminary.* *Three hours per week for a year.*  
*Associate Professor Scudder.]*

- \*12. [English Drama: Shakespeare's Successors. *Seminary.* *Three hours per week for a year.*

*Professor Bates.]*

This course proposes the study of the Jacobean Drama, Restoration Drama, and the stage and closet drama of the last two centuries. The authors emphasized in the first division are Jonson, Beaumont and Fletcher, Massinger, Chapman, Ford, Webster, Milton; in the second, Dryden, Otway, Congreve; in the third, Steele, Goldsmith, Sheridan, Shelley, Landor, Swinburne, Browning. A syllabus sold by the department provides a working basis.

13. Literary Types. *Open to all students except freshmen.* *One hour per week for a year.*

Associate Professor Sherwood, Associate Professor Jewett.

This course will include the examination of typical specimens of English Literature, as novel, essay, drama, epic, with particular consideration of methods in study, and of the various lines of investigation to be followed in forming a critical estimate. Lectures and papers.

14. English Masterpieces of the XIX. Century. *Open only to seniors who have taken previously no full course in English Literature, or course I only.* *Three hours per week for a year.*

Dr. Luce.

Lectures, discussions.

16. Old English Literature of the Anglo-Saxon and Anglo-Norman Periods.  
*Open to freshmen only.* *Four hours per week for a year.*

Dr. Bowen.

The purpose of this course is to study chosen masterpieces of English literature from the seventh to the fourteenth century. Bright's Anglo-Saxon Reader, Wyatt's edition of Beowulf, and Morris and Skeat's Specimens, Volume I., are read.

- \*17. The Life of the People as illustrated by English Literature. *Open to all students except freshmen.* *One hour per week for a year.*

Associate Professor Scudder.

A rapid survey is made in the first term of social pictures and ideals presented by representative authors in the Middle Ages, the Renaissance and the XVIII.

\* Not offered in 1898-99.

Century. Selections are studied from Langland's *Piers Plowman*, Sir Thomas More's *Utopia*, Swift's *Gulliver's Travels*. A more detailed study is made of the awakening of the social conscience in the great Victorian essayists, Carlyle, Ruskin, Matthew Arnold, and William Morris, and in the chief novelists of the period.

- \*18. American Authors. *Open only to seniors who have taken previously no full course in English Literature, or course 1 only. Three hours per week for a year.*

Professor Bates.

The courses are elective, with the following restrictions:—

Students proposing to elect a single full course must take 1, with the exception of seniors desiring course 14 or 18, and of freshmen, to whom 16 is the only course open.

Students proposing to elect two courses only, should take 1, followed by one of the courses designed for the training of the literary sense, 2, or 3, or 4, with the exception of seniors desiring course 14 or 18.

Students proposing a three-course major should take the initial historical course 1; then one of the courses for literary training, 2, or 3, or 4, and finally one of the courses presenting a literary epoch, 6, or 7, or 8, or 9.

Students proposing a four-course major should take either of the following combinations, 16, 8, 9, 6 or 7; or 8, 9, 6 or 7, 10.

The seminaries are open to graduates, and, rarely, to approved undergraduates and special students.

Either half of any one of courses 2, 3, 4, 6, 7, may be taken as a complete semester course, by permission of the department.

## IX. PHILOSOPHY.‡

- \*1. Psychology as Introductory to the Philosophy of Art ; Studies in AÆsthetics and Ethics. *Open to juniors and seniors, and to sophomores by permission of the department. Three hours per week for a year.*

Professor Morgan.

For students who have already completed a semester in psychology, studies in the interpretations of life in mythology and in Art, illustrating the abstractions explained in Münsterberg's "Psychology and the Real Life," may be substituted for the Elementary Psychology in course 1.

5. Ethics on the Basis of Psychology. *Open to juniors and seniors, and to sophomores by permission of the department. Three hours per week for a year. The work of the second semester may be elected without that of the first by students who have taken a semester of Psychology.*

Associate Professor Ritchie.

First semester: Study of the phenomena and the laws of mind; second

\* Not offered in 1898-99.

‡ Candidates for the Bachelor's degree must select the *required course* in Philosophy from the four numbered 1, 5, 6, 7.

semester: lectures on ethical systems; discussion of the application of ethical principles to the problems of individual and of social life. Text-books: Höffding's Outlines of Psychology and Mackenzie's Manual of Ethics.

6. Psychology as Introduction to Philosophy. *Open to juniors and seniors, and to sophomores by permission of the department. Three hours per week for a year. The work of the second semester may be elected without that of the first by students who have taken a semester of psychology.*

Associate Professor Case.

First semester: General outline of Psychology. Text-book: Titchener's Primer of Psychology. Second semester: Lectures, discussions, and papers. Elementary study of philosophical problems, as presented by the great thinkers of modern times. Examination of the relation of the various departments of philosophy to one another and to psychology. Reading of Locke's Essay concerning Human Understanding (parts of Books II. and IV.), and Berkeley's Principles of Human Knowledge.

7. Experimental Psychology. *Open to juniors and seniors, and to sophomores by permission of the department. Three hours per week for a year. The work of the first semester may be elected without that of the second, by students who have taken, or are taking, course 1 or 5 or 6.*

Professor Calkins, Dr. Gamble.

Lectures and discussions of the facts, the classifications, and the theories of psychology. Laboratory work under supervision; experiments in sensation, space-perception, and reaction-times, and in attention, association, and memory. Text-books: Titchener's Outline of Psychology and Sanford's Course in Experimental Psychology. Additional reading from Locke, Berkeley, Hume, Mill, and contemporary psychologists.

4. Logic. *Open to sophomores, juniors, and seniors. Three hours per week for the first semester.*

Associate Professor Case.

Text-book: Fowler's logic. Problems in argumentation and criticism.

13. Advanced Ethics. *Open to students by special permission from the instructor. Three hours per week for a year.*

Associate Professor Ritchie.

Subject of the course varied from year to year; 1898-99: the Ethic of Spinoza; Kant's ethical system and the English utilitarian school as represented by Mill and Sidgwick.

15. Advanced Psychology. *Open to students by permission of the instructor. Three hours per week for a year. The work of either semester may be taken without that of the other.*

Professor Calkins, Dr. Gamble.

Experimental investigation, by individual students, of special problems. Lectures and discussions on psychological method and on important forms of psycho-

logical theory. Reference in 1898-99 to Stout's Analytic Psychology, James's Principles of Psychology, Wundt's Grundzüge or Külpe's Psychology, and to selected chapters and essays from psychological monographs and journals.

This course may be taken by the same student in successive years.

16. Social Philosophy. *Open to students who have taken a semester of psychology. Three hours per week for the second semester.*

Associate Professor Case.

Lectures, reports of collateral reading. Preliminary study of social psychology; lectures on the development of society, on social institutions, and on the relation of society to its environment.

8. General history of Philosophy. *Open to students who have taken, or are taking, course 1 or 5 or 6 or 7. Three hours per week for a year. By permission of the instructor the work of either semester may be taken without that of the other.*

Associate Professor Ritchie.

Lectures on the development of thought in Europe, collateral reading, class discussions, occasional essays. First semester: ancient and mediæval philosophy; second semester: modern philosophy. Reference to various histories of philosophy, especially to those of Zeller, Burnet, Windelband, Erdmann, Schwegler, and Weber. Selections from Plato (Theaetetus entire), Descartes, Leibnitz, Berkeley, and Kant.

9. British and German Philosophy of the XVII. and XVIII. Centuries. *Open to students who have taken, or are taking, course 1 or 5 or 6 or 7. Three hours per week for a year. By permission of the instructor the work of the second semester may be taken without that of the first.*

Associate Professor Case.

Lectures and discussions. Text study of Locke's Essay concerning Human Understanding (Books II. and IV.); Berkeley's Principles of Human Knowledge; Hume's Treatise on Human Nature, Book I.; Leibnitz's Monadology and New Essays (in part); Kant's Critique of Pure Reason. Lectures on post-Kantian philosophy. An essay from each student on some topic of the Critique of Pure Reason.

- \*10. Greek Philosophy. *Open to students who have taken course 8 or 9. Three hours per week for a year.*

Associate Professor Ritchie.

Lectures, reports of special study, discussions. Text study of fragments of pre-Socratic philosophers (Ritter and Preller and Burnet); of Plato (Jowett's translation): Theaetetus, Phædo, Sophist, Parmenides (in part), Symposium, Phædrus and Republic; of Aristotle: Metaphysics (Bonitz or MacMahon), books 1, 6, 7, 8, 10 and 11, Nicomachean Ethics (Welldon), books 1-4 and 10; Psychology (Watson). Brief study of later Greek Philosophy.

\* Not offered in 1898-99.

- II. German Philosophy. *Open to students who have taken course 8 or 9.*  
*Three hours per week for a year.*

Professor Calkins.

Lectures, reports of special study, discussion. Text study of Leibnitz: Monadology and New Essays (in part); of Kant: selected essays and letters of the pre-critical period, Critique of Pure Reason, with comparison of editions 1 and 2, Metaphysic of Ethics, Critique of Practical Reason, Critique of Judgment (selections); of Fichte: Lectures on the Science of Knowledge, edition of 1794 (with individual study of the later works); of Schelling: *Vom Ich*, or selections from the *Transcendentale Idealismus*; of Hegel: selections from the Philosophy of Mind or from the Logic.

Either the Kantian or the post-Kantian part of this course may be extended to occupy most of the time.

It is not expected that courses 10 and 11 will both be given in the same year.

- \*2. The Philosophy of the Beautiful and History of Aesthetics. *Open to juniors and seniors.* *Three hours per week for a year.*

Professor Morgan.

Hegel's theory regarding beauty compared with other phases in the history of aesthetics; psychological investigation of the nature of imagination, with verification in the biographies of artists; application of principles of aesthetics studied in a series of compositions selected from each of the several arts: Architecture, Sculpture, Painting, Music, and Literature.

Students who intend taking 2 or 1 after 1898-99 will do well to elect in preparation some course offered in the Art Department or course 3 in Theory of Music.

- \*3. The Regenerating Life of the Christ. *Open to juniors and seniors.*  
*Two hours per week for a year.*

Professor Morgan.

The Bible presentation of the history of man's degeneration, and of the beginning of regeneration through Jesus Christ. Interpretations through modern history and literature of the Scripture accounts; the basis of the Christian religion compared with the basis of other religions.

- \*12. The Philosophy of Religion derived through Studies in the History of Religions. *Open to students prepared by a general elementary course in Philosophy.* *Three hours per week for a year.*

Professor Morgan.

Psychological investigation of the religious instincts and intuitions; the evolution of systems of religion; discussion of theories proposed to account for the differentiation of the historic types of religion; the embodiment of the national religion of Greece in mythology and art; the characteristics of Christianity in which it differs from all other religions.

\* Not offered in 1898-99.

## X. HISTORY AND ECONOMICS.

## I. HISTORY AND POLITICAL SCIENCE.

- †1. Political History of England to 1603. *Open to freshmen, sophomores, and juniors, and to seniors who have taken no college course in history. Freshmen four hours, all others three hours per week for the first semester.*

Dr. Scofield.

- †2. Political History of England from 1603 to the present time. *Open to sophomores, juniors, and seniors, and to freshmen who have completed course 1, or who offered English History as an entrance subject. Freshmen four hours, all others three hours per week for the second semester.*

Dr. Scofield.

Emphasis is placed on the political, social, and industrial conditions in relation to race development.

- †3. History of France from the Roman conquest to the Peace of Utrecht. *Open to sophomores, juniors, and seniors. Three hours per week for a year.*

Dr. Scofield.

This course furnishes an outline of mediæval and early modern history, and deals with the simpler political and social problems. It aims to train students in methods of historical work, and to furnish a background for detailed study of particular epochs.

4. History of the French Revolution. *Open to sophomores, juniors, and seniors. Three hours per week for a year.*

Professor Coman.

This course involves (1) an introductory discussion of the causes of the Revolution as developed in the reign of Louis XV.; (2) a detailed study of the progress of the Revolution and of the reaction against democratic tyranny culminating in Imperialism; (3) an inquiry into the influence of revolutionary ideas in the subsequent history of France, Germany, Italy, Spain and Russia.

5. Constitutional History of England to 1601. *Open to juniors and seniors. Three hours per week for the first semester.*

Mr. White.

A study of the origin and early development of the English constitution. Stubbs is the principal authority. The class has recourse to the text of charters and laws.

6. Constitutional History of England from the accession of the Stuarts. *Open to juniors and seniors. Three hours per week for the second semester.*

Mr. White.

A study of the later development of the English constitution, the rise of party and cabinet government, and the establishment of popular control.

† Courses 1 and 2, or 3, are prerequisite to later election.

7. History of the United States from 1787. *Open to juniors and seniors.*  
*Three hours per week for a year.*

Mr. White.

A study of the formation and development of the constitution of the United States, with especial reference to controlling forces, such as the organization of parties, the growth of democracy, the rise of the slave power, the political effects of the development of the West. The exercises consist of lectures by the instructor and reports by the students on topics assigned for individual study.

- \*8. Mediaeval Institutions. *Open only to students who shall satisfy the instructor of their fitness for the work.* *Three hours per week for a year.*

The course will consist partially of lectures, but chiefly of the discussion of papers to be written by the students. The period covered will be from Charlemagne to the Peace of Westphalia. A knowledge of German as well as of Latin will be of advantage.

- \*9. History of Modern Germany from the Reformation to the present day, with special attention to the reign of Frederick the Great and to the work of Bismarck. *Open to sophomores, juniors, and seniors.*  
*Three hours per week for a year.*

This course will be conducted by lecture, but special topics will be assigned the students, on which independent work will be expected. A working knowledge of the German language will be of great use.

- \*10. Origin of American institutions. *Open to students who have taken courses 5 and 6 or 7.* *Three hours per week for the first semester.*  
 Associate Professor Kendall.

The aim of this course is the investigation of the origin and early development of American institutions, based on a study of original sources. To each student will be assigned a topic for special investigation. The exercises will consist of lectures by the instructor and the analysis and discussion of important documents by the class.

- †11. Political Science. *Open to juniors and seniors.* *Three hours per week for a year.*

Mr. White.

This is an introductory course in the comparative study of the origin, character, development, and aim of political institutions. The work will take the form of lectures and discussions, with parallel readings. In addition, each member of the class will be expected to write a thesis on some subject assigned to her for special study.

\* Not offered in 1898-99.

† Withdrawn for the current year.

- \*12. Constitutional Law of the United States. *Open to students who have taken courses 5 and 6 or 7. Three hours per week for the second semester.*

Associate Professor Kendall.

The work of this course is based on a study of selected cases illustrating and interpreting the constitution. Lectures by the instructor will give a general view of the principles of American constitutional government. In addition, there will be class-room discussions of controverted points.

## II. ECONOMICS.

1. Elements of Economics. *Open to sophomores, juniors, and seniors. Three hours per week for the first semester.*

Miss Balch.

An introductory course, designed to train the student to apprehend and analyze industrial phenomena.

2. Industrial History of the United States. *Open to sophomores, juniors, and seniors who have had course 1. Three hours per week for the second semester.*

Professor Coman.

A study of the national development in its material and social aspects, accompanied by a critical review of our economic legislation, commercial and financial.

- \*3. Industrial History of England. *Open to juniors and seniors who have taken courses 1 and 2. Three hours per week for the first semester.*

Professor Coman.

A study of the successive phases of industrial organization, with a view to tracing this aspect of social evolution.

4. Socialism. *Open to juniors and seniors who have had courses 1 and 5 or 8. Three hours per week for the second semester.*

Miss Balch.

A study of socialist theories, "Utopian" and "Scientific," in their historical development, with some consideration of modern socialist parties, and especially of German Social Democracy.

5. Statistical study of certain economic problems in the industrial history of the United States. *Open to juniors and seniors who have had courses 1 and 2. Three hours per week for the first semester.*

Dr. Smith.

The course is introduced by lectures on the principles of statistical research. Each member of the class undertakes the investigation of a particular problem, and reports the results of her inquiry to the class. The graphic method of presenting statistical results is emphasized. No single authority can be recommended. The United States Census, the Census of Massachusetts, the statistical reports of the Treasury Department, the reports of the National and State Labor Bureaus, furnish the statistical data.

\* Not offered in 1898-99.

6. Social Economics I. *Open to juniors and seniors who have had courses 1 and 2. Three hours per week for the first semester.*

Dr. Smith.

A study of the defective, dependent, and delinquent classes, accompanied by discussion of methods of dealing with each.

7. Social Economics II. *Open to juniors and seniors who have had courses 1 and 2. Three hours per week for the second semester.*

Miss Balch.

A discussion of methods of meeting certain normal social needs, such as sanitation, housing, household economy, education, recreation, and thrift.

8. The Evolution and Present Conditions of Wage-labor. *Open to students who have had courses 1 and 2. Three hours per week for the first semester.*

Miss Balch.

A review of the origin of the wage relation between capital and labor will be followed by a detailed discussion of contemporary problems, especially as represented in the United States.

## XI. PURE MATHEMATICS.

1. Required course for freshmen. *Four hours per week for a year.*

(a) Solid and Spherical Geometry. (Byerly's Chauvenet). *Three hours, first semester.*

(b) Higher Algebra (Hayes). *One hour, first semester; two hours, second semester.*

(c) Plane Trigonometry. *Two hours, second semester.*

Associate Professor Chandler, Miss Merrill, Miss Denis, Miss Kelsey.

2. (a) Plane Analytical Geometry (C. Smith). *Three hours, first semester; two hours, second semester.*

(b) Analytical Trigonometry (Loney). *One hour, second semester.*  
*Open to students who have had course 1.*

Acting Professor Burrell, Associate Professor Chandler.

3. Differential and Integral Calculus (Osborne); History of Mathematics.  
*Open to students who have had course 2. Three hours per week for a year.*

Acting Professor Burrell, Associate Professor Chandler.

- †4. Theory of Equations, with Determinants (Burnside and Panton). *Open to students who have had course 3. Three hours per week, first semester.*

Associate Professor Chandler.

† Withdrawn for the current year.

- \*5. Solid Analytical Geometry (C. Smith). *Open to students who have had course 3.* *Three hours per week, second semester.*

Associate Professor Chandler.

- \*8. Projective Geometry. *Open to seniors who have had course 2; and to juniors by permission of the instructor.* *Three hours per week for a year.*

Acting Professor Burrell.

A lecture course, following the general method of Reye's Geometrie der Lage.

10. Differential Equations. *Open to students who have had course 4.* *Three hours per week for a year.* (*Offered for 1898-99 as a semester course; three hours, second semester.*)

Associate Professor Chandler.

- †11. Higher Plane Curves. *Open to students who have had course 4.* *Three hours per week, first semester.*

Miss Pendleton.

An introduction to the theory of plane algebraic curves.

6. Modern Synthetic Geometry. *Open to students who have had course 2.* *Three hours per week, first semester.*

Acting Professor Burrell, Miss Merrill.

Modern geometry of the triangle; projective and metrical properties of plane and sheaf forms of the first and second orders; involution; theory of poles and polars; reciprocation. Given by lectures and references.

7. Geometry of Space. *Open to students who have had course 6.* *Three hours per week, second semester.*

Acting Professor Burrell.

The subject will be treated both by the analytic and synthetic method. For the analytic work C. Smith's Solid Geometry will be used as a text-book. The synthetic work of course 6 will be continued by lectures.

## XII. APPLIED MATHEMATICS.

1. Elementary Mechanics. *Open to sophomores, juniors, and seniors.* *Three hours per week for a year.*

Professor Hayes.

2. Elementary Mathematical Astronomy. *Open to sophomores, juniors, and seniors.* *Three hours per week for the first semester.*

Professor Hayes.

The course forms a suitable basis for further study in astronomy, either mathematical or general. Text-book: Barlow and Bryan's Elementary Mathematical Astronomy.

\* Not offered in 1898-99.

† Withdrawn for the current year.

- †3. Thermodynamics. *Open to students who have had courses 1 and 4.*  
*Three hours per week for the second semester.*

Professor Hayes.

4. Theoretical Mechanics; advanced course. *Open to students who have had course 1.* *Three hours per week for the first semester.*

Professor Hayes.

In connection with this course a series of lectures will be given on the history of mathematics in its relation to science.

5. Geodynamics. *Open to students whom the department judges to be properly qualified.* *Three hours per week for the second semester.*

Professor Hayes.

The chief subjects treated are: Precession, Nutation; Form, Size, Density of the Earth; Thermal condition of the Earth, Tides.

- †6. Theoretical Astronomy. *Open to students who have had courses 1 and 2.* *Three hours per week for a year.*

Professor Hayes.

Theory of the determination of orbits; determination of a parabolic orbit. Method of Least Squares; Perturbations.

Text-book: Watson's Theoretical Astronomy. For reference: Gauss's Theoria Motus; Oppolzer's Lehrbuch zur Bahnbestimmung; Dziobek's Planetenbewegungen.

7. Principles of Inference. *Open to juniors and seniors.* *One hour per week for a year.*

Professor Hayes.

A course in logic especially designed for students of mathematics and science. Material for study will be drawn from masterpieces of scientific writing and from current scientific literature.

### XIII. CHEMISTRY.

1. General Chemistry. *Open to all undergraduates.* *Freshmen four hours per week for a year.* *All other students, three hours per week for a year.*

Professor Roberts, Associate Professor Bragg, Dr. Fairbanks.

Course 1 is for beginners in Chemistry, and is intended to familiarize the student with the important properties of the elements—especially the non-metallic ones—and their compounds, with their modes of preparation, and with such tests as shall lead up to the study of systematic Qualitative Analysis; also to present the laws governing chemical reactions, the meaning of chemical equations, and the more recent theories adopted in the science.

All of the more simple experiments are performed by the student herself in the laboratory.

† Withdrawn for the current year.

2. Qualitative Analysis. *Open to students who have completed course 1. Three hours per week for the first semester.*

Associate Professor Bragg.

This course supplements course 1 by presenting the properties and characteristic reactions of the metallic elements. Practical methods of separating and recognizing the elements present in simple mixtures are taught, and the progress of the student is constantly tested by the examination of simple substances, the exact composition of which is unknown to the student.

3. Organic Chemistry. *Open to students who have completed course 1. Three hours per week for the second semester.*

Associate Professor Bragg.

This course is necessarily brief, and is limited to the study of the characteristics of the most common classes of the carbon compounds, these characteristics being illustrated in the laboratory or lecture room by the behavior of some well-known representative of each class.

4. Qualitative Analysis. *Open to students who have completed course 1. Three hours per week for a year.*

Professor Roberts.

5. Quantitative Analysis. *Open to students who have completed course 2 or 4. Three hours per week for the second semester.*

Professor Roberts, Dr. Fairbanks.

In this course a few typical processes involving both volumetric and gravimetric methods will be taught, to illustrate general principles of Quantitative Analysis.

- †6. Advanced Quantitative Analysis. *Open to students who have completed course 5. Three hours per week for the first semester.*

Professor Roberts, Dr. Fairbanks.

This course is a continuation of course 5, and deals with more special methods of work and practical applications.

7. Organic Chemistry, with laboratory work in organic preparations. *Open to students who have completed two years' work in Chemistry. Three hours per week for a year.*

Professor Roberts.

8. Theoretical Chemistry. *Open to students who have completed course 1. Three hours per week for the first semester.*

Professor Roberts.

9. Stereo-Chemistry and Laboratory work in connection with Theoretical Chemistry. *Open to students who have completed courses 3, or 7 and 8. Three hours per week for the second semester.*

Professor Roberts, Associate Professor Bragg.

† Withdrawn for the current year.

## XIV. PHYSICS AND PHYSICAL ASTRONOMY.

1. General Physics. *Open to all undergraduates. Four hours per week for a year for freshmen; three hours per week for a year for all others.*

Professor Whiting, Miss Evans.

This course is intended for students who are beginning Physics. It consists of lectures amply illustrated, followed by laboratory work. The object is to outline the elementary principles of Mechanics, Sound, Electricity, and Light, to train the powers of observation, and to teach proper methods of recording observations.

- †2. Laboratory Work. *Open to sophomores, juniors, and seniors by permission of the department. One hour per week for a year.*

Professor Whiting.

3. Heat, Light, and Electricity. *Open to sophomores, juniors and seniors who have completed course 1, or an equivalent. Three hours per week for a year.*

Professor Whiting

The course is intended, by experimental work and consultation of original memoirs, to acquaint the student with the methods of original investigation; also to give practice in the preparation of subjects and their presentation before others, with suitable illustration.

The course is desirable for all who wish to prepare to teach Physics.

- †4. Selected subjects in Light and Electricity, mathematically treated. *Open to seniors who have completed course 3, and also course 3 in Pure Mathematics.*

Professor Whiting.

Text-books: Preston's Theory of Light, and J. J. Thomson's Mathematical Theory of Light and Electricity.

5. Advanced Laboratory Work. *Open to students who have completed course 3. Three hours per week for a year.*

Professor Whiting.

Advanced work upon the spectrum, polarized light, interference phenomena, absolute measurements in electricity and magnetism. Special problems assigned: constant reference to original sources.

- †6. Meteorology. *Open to sophomores, juniors, and seniors. Three hours per week for the first semester.*

Professor Whiting.

Text-book: Davis's Meteorology. The course is accompanied by constant reference to original papers, by the solution of inductive problems from the weather maps and records of observations. Familiarity is gained with the use of standard instruments, including the self-recording thermometer, barograph, anemometer, and anemoscope.

- †7. Physical Astronomy. *Open to sophomores, juniors, and seniors. Three hours per week for the second semester.*

Professor Whiting.

† Withdrawn for the current year.

‡ An elementary course in Physics, either in college or in secondary school, is prerequisite to courses 6 and 7.

## XV. GEOLOGY AND MINERALOGY.

1. Geology. *Open to sophomores, juniors, and seniors. Three hours per week for a year.*

Professor Niles, Miss Fisher.

Lectures, recitations, and field-work. Subjects treated: Dynamical Geology, Structural and Historical Geology.

2. Mineralogy. *Open to sophomores, juniors, and seniors. Three hours per week for the first semester.*

Miss Fisher.

Lectures and recitations. Laboratory study of sets of specimens of the more important mineral species. Blow-pipe analysis. Crystallography. A reference collection is always available for students' use.

3. Advanced Geography. *Open to students who have completed one year of science. Three hours per week for the second semester.*

Professor Niles, Miss Fisher.

Lectures, recitations, and two laboratory appointments per week for map-study. This course comprises a comparative study of the geographic features of the continents. It also discusses the influence which these features have upon the life, habits, prosperity, and commercial relations of peoples and nations.

## XVI. BOTANY.

1. General Morphology and Principles of Classification. *Open to all undergraduates. Freshmen four hours per week for a year. All other students three hours per week for a year.*

Professor Hallowell, Associate Professor Cummings, Associate Professor Cooley.

Exercises in elementary Vegetable Physiology. A herbarium of fifty species is required.

2. Cryptogamic Botany. *Open to students who have completed course I. Three hours per week for a year.*

Associate Professor Cummings.

Study of types of all the more important groups of flowerless plants, preceded by a brief course in elementary Vegetable Histology.

3. Systematic Botany (advanced work) and Economic Botany. *Open to students who have completed course I. Three hours per week for a year.*

Associate Professor Cooley.

This course includes special study of the more difficult orders of flowering plants, with mosses and ferns; determination of dried specimens; report upon the flora of some assigned locality; and investigation of the useful products of plants. A paper is required on some important order not studied in class, illustrated by specimens collected in the vicinity.

- \*4. Medical Botany. *Open to students who have completed courses 1 and 2.*  
*Three hours per week for a year.*

Associate Professor Cooley.

Microscopical examination of the typical and important roots, rhizomes, stems, leaves, barks, and fruits of the Pharmacopœia.

This course is intended to give familiarity with the botanical characters of the more common medicinal plants, thus aiding in the identification of the crude drugs derived from them, and in the detection of adulterations. The active principles of such drugs, and peculiar modes of action, are also investigated.

5. Vegetable Histology and Physiology ; Microscopy. *Open to students who have completed courses 1 and 2.* *Three hours per week for a year.*

Professor Hallowell.

Cell structure and the study of tissues; practical experiments and original investigations. Twenty-five mounted slides are required.

A knowledge of the elements of Physics and Chemistry is very desirable for this course.

- \*6. Plant Biology. *Open to students who have completed courses 1 and 2.*  
*Three hours per week for a year.*

Associate Professor Cooley.

Gross anatomy, histology, and physiology of a series of plants, considered as types, proceeding from the simpler to the more complex organisms. Special attention will be given to tracing the development of organs and the evolution of forms.

- \*7. Embryology and other special topics. *Open to students who have completed courses 1, 2, and 5.* *Three hours per week for a year.*

Professor Hallowell.

This course is to be pursued with a view to original research and a thorough acquaintance with the literature of the subject.

- \*8. Advanced Cryptogamic Botany. Systematic study of any chosen group or groups of Cryptogams. *Open to students who have completed courses 1 and 2.* *Three hours per week for a year.*

Associate Professor Cummings.

- \*9. Dendrology and Forestry. *Open to students who have completed course 1.*  
*Two hours per week for a year.*

Professor Hallowell.

Offered for the first time in 1899-1900.

A study of the anatomy and physiology of trees, their products and uses, their relations to climate. Protection of woodlands and forest regulations.

Candidates for courses 7 and 8 should have a good reading knowledge of French and German.

The instruction in all courses of the Botanical Department is given through practical work in the laboratory, accompanied by explanatory lectures. Three appointments per week, one hour and a half each.

\* Not offered in 1898-99.

Students sketch all the objects studied.

Instructors and students meet stately for the discussion of recent discoveries in botanical science.

## XVII. ZOOLOGY AND PHYSIOLOGY.

1. General Biology. *Open to freshmen and sophomores. Freshmen four hours, all other students three hours per week for a year. Each classroom exercise followed by a laboratory appointment.*

Miss Hubbard.

In this course emphasis is laid on the fundamental unity of plants and animals. The general principles underlying all life are studied by means of field work, laboratory work, and lectures. A study is made of a typical animal, the frog, and also of a typical plant, the bean, in order to compare the morphology and physiology of the two kingdoms. Development is studied in the life history of the frog. A brief comparative study is made of lowly plants and animals.

This course is intended to train students in accuracy of observation and methods in scientific work.

2. General Zoology. *Open to students who have completed course 2 and to others upon the advice of the professor. Three hours per week for a year. Each classroom exercise followed by a laboratory appointment.*

Professor Willcox.

Comparative study of all the great groups (types) of animals, beginning with unicellular organisms and concluding with mammals. Also a brief study of the embryology of a vertebrate.

This course aims to present the outlines of animal structure and classification, and to give familiarity with the commoner forms.

Courses 1 and 2 together will meet the admission requirement in biology of the Johns Hopkins Medical School.

3. Anatomy of the Cat. *Open to students who have completed course 1 or course 2. Three hours per week for the first semester.*

Miss Claypole.

This course is intended to train students in careful dissection. It is especially fitted for those who intend to study medicine. Constant reference will be made to human anatomy, and a considerable lightening of the ordinary course in that subject in a medical school can be effected by taking this work.

4. Embryology of the Chick. *Open to students who have completed course 1 or course 2. Three hours per week for the second semester.*

Miss Hubbard.

This course, by a thorough study of the development of the chick, introduces the student to the general principles of embryology. Training is given in the mounting of embryos and the preparation of serial sections.

- \*5. Systematic Zoology. *Open to students who have completed course 1 or course 2. Three hours per week for a year.*

Mr. Morse.

Classification of animals; study of habits; readings in natural history; excursions to neighboring museums.

6. Philosophical Zoology. *Open, under the advice of the professor, to students who have completed course 1 or course 2. Three hours per week for a year.*

Professor Willcox.

Readings and discussions of Darwin, Spencer, Wallace, Weismann, and kindred authors. One careful paper on a biological subject prepared by each student.

- \*7. Pedagogics of Zoology. *Open to students who have completed two courses in Zoology. Three hours per week for one semester.*

Professor Willcox.

Discussion of various methods of teaching zoology. Practice in working up and presenting lectures on given topics. Training in the use of reference books and original authorities. Students must be able to work independently, as a small amount only of supervision will be provided.

9. Animal Histology and Histological Technique. *Open to students who have completed course 1 or course 2. Three hours per week, also three laboratory appointments per week, for a year.*

Miss Claypole.

Lectures on cellular histology and physiology. Laboratory work, including study of prepared specimens and methods of histological preparation. Student lectures. A small piece of individual investigation is required of each student.

The first semester of this course may, with the advice of the department, be taken independently, or combined with course 4 instead of with the second half of course 9.

10. General Physiology. *Open to juniors and seniors who have completed course 1 or course 2. Three hours per week, also three laboratory appointments per week, for a year.*

Miss Claypole.

Lectures and laboratory work dealing with experimental and theoretical questions in physiology, such as the structure and action of muscle, nerves, blood vessels, the heart, blood, the formation and action of digestive juices, excretion, metabolism, the special sense organs, the brain, etc. Each student arranges and uses the apparatus necessary for almost all experiments; but some of the more difficult are performed by the instructor, assisted in turn by the different members of the class.

*Apparatus needed by students in this Department.*—Microscopes, reagents, etc., are provided by the College. A limited number of sets of dissecting instruments are owned by the College, and may be rented for a small fee.

\*Not offered in 1898-99.

## HYGIENE.

1. Physiology and Hygiene. *Required of freshmen. One hour per week for a year.*

Miss Sherrard.

Lectures, demonstrations, and quizzes.

## XVIII. PEDAGOGY.

1. Educational Theories. *Open to juniors, and after 1898-99 to seniors. Three hours per week for the first semester.*

Associate Professor Carlisle.

This course treats of the History of Education and of its experiments: it makes a critical study of a few masterpieces of educational theory, and aims to acquaint students with accepted systems of education, and to prepare them for the study of present problems of Pedagogy.

2. Psychology as Applied to Pedagogy. *Open to students who have completed Pedagogy 1. Three hours per week for the second semester.*

Associate Professor Carlisle.

3. Educational Theories. *Open to seniors for 1898-99 only. Three hours per week for the first semester.*

Associate Professor Carlisle.

This course presents a comparative study of the notable theories of education. It surveys rapidly the theories preceding the Renaissance, and examines later systems more minutely. The course selects and discusses principles and theories of acknowledged merit, and applies the same to the work of the ordinary class room.

4. School Organization and Management. Principles of Teaching. *Open to seniors who have completed course 3. Three hours per week for the second semester.*

Associate Professor Carlisle.

N. B.—The work offered for 1898-99, under courses 3 and 4, will be withdrawn after this year, and there will be substituted courses based upon 1 and 2 and forming together with them two full years of consecutive work in Pedagogy.

## XIX. BIBLIOGRAPHY.

1. Bibliography. *Open to sophomores, juniors, and seniors. One hour per week for a year.*

Miss Godfrey.

This course aims to familiarize the student with the best bibliographical works and with library methods and catalogues; to teach the best method of reaching the literature of a special subject, and to furnish important bibliographical lists likely to prove valuable in future study. It will prove especially helpful taken in connection with courses in English literature, philosophy, history, economics, and the history of art.

## XX. ELOCUTION.

1. Training of the Body and Voice. *Open to sophomores, juniors, and seniors, and to freshmen by special permission. Two hours per week for a year.*

Miss Bennett.

Body; poise and bearing. Voice; correct method of breathing, etc. Reading with special reference to a good use of the voice. Recitations.

2. Training of the Body and Voice. Expression. *Open to students who have completed course 1, or an equivalent course. Two hours per week for a year.*

Miss Bennett.

Voice culture; exercises for freedom of body; gesture; recitations from the best authors; reading at sight.

3. Shakespearean Reading. *Open to students who have completed courses 1 and 3, and who have completed, or are taking, literature 9; others at the discretion of the instructor. Two hours per week for a year.*

Miss Bennett.

Scenes selected for memorizing.

## XXI. ART.

1. History of Architecture. *Open to sophomores, juniors, and seniors. Three hours per week for a year.*

Mr. Holt.

An outline of Egyptian, Assyrian, Greek, Roman, Byzantine, Romanesque, and Gothic architecture, with a fuller treatment of Renaissance architecture.

2. History of Sculpture. *Open to juniors and seniors. Three hours per week for a year.*

Dr. Walton.

An outline of Egyptian and Assyrian sculpture, with a fuller treatment of the Greek and Roman periods, and a brief study of the transition to the Renaissance sculpture.

3. Outline History of Italian Painting. *Open to juniors and seniors. Three hours per week for a year.*

Miss Jackson.

After a rapid survey of the political and social conditions which preceded the Renaissance of Art, the principal schools of Italian painting will be studied—the Tuscan School, from Cimabue to Andrea del Sarto, with especial attention to Giotto, Marracci, The Lippi, and Botticelli; Leonardo da Vinci and Michelangelo; the Umbrian School and Raphael; the Lombard and Venetian Schools, from Mantegna and The Bellini to Titian and Tintoretto.

5. Studio Practice. *Required of all students taking a first course in the History of Art, except those who are taking Art 4. No other students admitted. Three consecutive hours per week for a year.*

Professor Brown.

This course consists of drawing and sketching, with reference to the laboratory work in History of Art.

6. Theory and Practice. *Open, by permission of the department, to students who have already completed a course in Art, and who are taking one or more courses in History of Art.*

Professor Brown.

Students in this course will be expected to attend certain exhibitions, and to understand and analyze different methods of work,—both by practice and observation. There will be informal lectures on Art matters, modern masters and schools of painting. The aim of the course is to bring the students in touch with the art life of the time.

7. History of Greek Sculpture. Seminary. *Open, by permission of the instructor, to students who have a knowledge of Greek and German. Three hours per week for a year.*

Dr. Hoppin.

In this course one limited period of Greek Sculpture will be carefully studied. A part of the work will be carried on in the Museum of Fine Arts in Boston.

4. Greek Mythology as Illustrated in Ancient Art. *Open to students who have completed course 2, or two full courses in Greek, and to others upon consultation. One hour per week for the year.*

Dr. Walton.

All students in art courses (except in Art 4) are required to give one hour weekly throughout the year to laboratory work, examining, comparing, and sketching from the photographs used in illustration. Previous preparation in drawing is not required, but it is desirable that all students who intend to take courses in Art should be prepared to present specimens of any drawing that they may have done. All laboratory work is under the immediate supervision of Professor Brown. The art library and art laboratories are open to students from nine to five-thirty daily, and from seven to nine in the evening.

## XXII. MUSIC.

### I. MUSICAL THEORY.

The following three courses count toward a degree. They may be elected by students not taking instrumental or vocal music, and are subject to no separate tuition fee.

3. General Theory and Choral Practice. *Open to all students on approval of the instructors. One hour per week for a year.* (Three class appointments, but no outside preparation required.)

General Theory, two hours. Mrs. Stovall.

Practice with the College Chorus, one hour. Mr. Rotoli.

The purpose of this course is to give a substantial foundation for further work and to enable a student to listen to music with intelligent interest and genuine profit.

1. Elementary Harmony. *Open to sophomores, juniors, and seniors who can read and play simple four-part music. Three hours per week for a year.*

Mrs. Stovall.

The primary object of this course is to give the student a knowledge of chords, their relations and progressions, modulation, and inharmonic tones. The work is conducted on the contrapuntal principle in order to give some knowledge also of the laws which govern melody. Besides the usual written work, exercises at sight are required, both at the piano and at the blackboard.

2. Advanced Harmony. Analysis and Form. *Open to students who have completed course 1. Three hours per week for a year.*

Mrs. Stovall.

**Harmony:** The student is expected to make practical application of harmonic material in original phrases and periods. Given melodies, used as *canti firmi*, are to be supplied with one, two, and three additional melodious parts. Instrumental as well as vocal styles are treated in this course. **Form:** The synthetic and analytic study of the homophonic designs of composition.

## II. INSTRUMENTAL AND VOCAL MUSIC.

Training in instrumental or vocal music does not count toward a degree; but any student who completes the prescribed courses in Piano, Organ, or Voice will receive the certificate of the department of Music. For terms see p. 18.

*Candidates for the certificate of the department of Music* may devote all their time to Music, except that which is given to three academic studies, including a course in Bible. Candidates for admission to this course must meet requirements I., II., III., pp. 24-26, and must also present the maximum preparation in either Latin, Greek, French, or German. The time occupied in study for a certificate depends upon the proficiency of the pupil, but in general four years are needed.

*Candidates for the B.A. degree* may take a course in vocal or instrumental music in connection with their regular academic work, but in this case five years are required for the completion of the courses requisite to the degree.

*Special students* may arrange for courses combining greater or less amounts of music and academic work. The requirements for admission are the same as for the regular musical course.

Those who are suitably qualified may pursue musical studies exclusively, without being otherwise connected with the College. For such students special arrangements will be made.

#### Certificate.

Any student in the College who completes any one of the following courses of study will receive the certificate of the department of music.

*A.* Piano : two lessons a week, with periods of practice daily for five days each week.

Academic subjects : from six to eight hours a week throughout the course, including Musical Theory (courses 1 and 2), modern language, and Bible study.

*B.* Organ : two lessons a week with daily practice, as in piano study. Academic subjects as in *A*.

*C.* Voice : two lessons a week with daily practice. Academic subjects as in *A*, but the modern languages pursued must include Italian, which should be taken as early as possible, that the student may have the benefit of the subject throughout the course.

Violin, Viola, Violoncello, Harp, or any orchestral instrument, may be made a specialty instead of the above-mentioned principal studies.

 Students intending to apply for a certificate in the musical course must give at least a year's notice. Voice and Organ Students are not obliged to spend the required four periods upon their specialty alone, but may combine with that some other branch of music.

#### PIANO.

Those who make piano their specialty, and wish to obtain a certificate in that course should, upon entering, be familiar with correct phrasing, staccato and legato touch, the ordinary musical signs, *and their application*; should show technical proficiency, and should present the following work or its equivalent : Czerny, Op. 299, three books ; Loeschhorn, Op. 66, three books ; Bach, Preludes ; and two or three Sonatas by Haydn and Mozart.

The course will be adapted to the particular needs of the student, but will be so arranged that the student upon its completion shall have a fundamental knowledge of the best works in pianoforte literature : Bach, Händel, Mozart, Haydn, Beethoven, Schubert, Schumann, Weber, Mendelssohn, and Chopin, as well as the different schools of modern writers.

Attention will also be given to four-hand playing ; and, for those who are sufficiently advanced, to playing with other instruments.

#### ORGAN.

A satisfactory knowledge of pianoforte technique is prerequisite to the study of organ playing.

The course consists of systematic drill in organ technique, special exer-

cises in playing church music, and careful study of works by the best composers, representing the different schools of organ music.

A shorter course may be arranged for students desiring to limit themselves to the work of a church organist.

---

#### NEEDS OF THE COLLEGE.

Wellesley College, established by private benevolence, entered upon its work with a costly material equipment but with no endowment in money. It is to-day practically dependent upon its board and tuition fees for running expenses and for repairs ; it has almost no other resources with which to make the additions to apparatus and to buildings that are demanded by the constant advance and expansion of its academic work.

The original munificent outlay has been amply justified by results. From Wellesley have been graduated some sixteen hundred young women, who have carried the fruits of their college training into the schools and households of their country, and into benevolent and Christian work at home and abroad. It is believed that the College has reached a position from which it can with full confidence appeal for aid to the public at large.

Among the urgent needs of the College are the following :—

1. Unrestricted funds for defraying general expenses.
2. Another hall for dormitory purposes.
3. An additional laboratory building.
4. A gymnasium building.
5. The endowment of the presidency and professorships.
6. The further equipment of the Department of Art, with casts, pictures, engravings, and models.
7. A library building.

#### FORMS OF BEQUEST.

*I give and bequeath to the Trustees of Wellesley College the sum of \_\_\_\_\_ dollars, to be appropriated by the Trustees for the benefit of the College in such manner as they shall think will be most useful.*

---

*I give and bequeath to the Trustees of Wellesley College the sum of \_\_\_\_\_ dollars, to be safely invested by them, and called the \_\_\_\_\_ Scholarship Fund. The interest of this fund shall be applied to aid deserving students in Wellesley College.*

---

*I give and bequeath to the Trustees of Wellesley College the sum of \_\_\_\_\_ dollars, to be safely invested by them, and called the \_\_\_\_\_ Endowment Fund. The interest shall be applied to the payment of the salaries of teachers in Wellesley College, as the Trustees shall deem expedient.*
